

Sheeban Sheikh

Data Analyst Intern (Seeking Opportunity) | SQL • Excel • Power BI

@ work.sheeban@gmail.com linkedin.com/in/sheeban-sheikh Nagpur, Maharashtra

SUMMARY

Third-year Engineering student with a strong foundation in Data Analytics and problem-solving. Proficient in SQL, Microsoft Excel, and Power BI, with practical experience in data cleaning, data visualization, and dashboard development. Currently working on data analytics projects and expanding skills in Python, Tableau, and Google Analytics. Actively seeking a Data Analyst internship to apply analytical skills, contribute to data-driven decisions, and gain real-world experience.

EXPERIENCE

Junior Data Analyst

Personal Project

📅 2025 - Present 📍 Remote

Worked on a self-initiated sales data analysis project to strengthen data analytics skills. The project focused on cleaning, analyzing, and visualizing e-commerce sales data using modern tools.

- Designed and built an interactive **Power BI dashboard** to track KPIs like revenue, product trends, and region-wise sales
- Applied **data visualization** best practices to improve decision-making and storytelling
- Gained hands-on experience in real-world **data preprocessing**, **dashboard design**, and **KPI reporting**

EDUCATION

Bachelor's degree in Artificial Intelligence & Data Science

RTMNU University

📅 2023 - 2027 📍 Nagpur, Maharashtra

LANGUAGES

Hindi
Native

English
Advanced

STRENGTHS

Data Analysis Proficiency

Transformed raw datasets into actionable insights using SQL and Power BI, improving project clarity and reporting accuracy.

Business Mindset

Understand business objectives and align data strategies to support informed decision-making and goal tracking.

Quick Learning & Adaptability

Rapidly grasp new tools and concepts like Tableau and Python, and apply them effectively in real-world scenarios.

SKILLS

SQL

Tableau

Python

Power BI

Data Cleaning & Preprocessing

Python for Data Analysis

CERTIFICATION

IBM – SQL and Relational Databases

Learned SQL fundamentals, table joins, filtering, and aggregation in relational databases.

HackerRank – SQL

Verified understanding of SQL queries, joins, filtering, and aggregations.

INTERESTS

Data Visualization

Passionate about presenting data through clear, compelling visuals to drive better business understanding and decisions.

Export Marketing

Exploring how to position Indian products in international markets.
